

RAJNEESH KUMAR

Senior Software Engineer | Backend Specialist (Java & Spring Boot)

Noida, Uttar Pradesh, India | +91 7814015072 | rajneesh11263@gmail.com | linkedin.com/in/rkrajneesh-kumar

PROFESSIONAL SUMMARY

Performance-driven **Backend Engineer with 4+ years of experience** specializing in the Java/Spring ecosystem. Proven track record in architecting scalable microservices and high-throughput data pipelines handling **100k+ concurrent records**. Expert in system optimization, achieving a **25% reduction in latency** and a **30% boost in messaging efficiency**. Recognized for **technical leadership** in payment integrations and a commitment to high-velocity development using modern **AI-augmented coding tools** (Cursor, Claude Code).

TECHNICAL SKILLS

- Languages:** Java (8/11/17), SQL (Expert), JavaScript, HTML/CSS
- Frameworks:** Spring Boot, Spring Cloud, Hibernate ORM, Spring Security, Spring Batch
- Architecture:** Microservices, Event-Driven (EDA), RESTful APIs, SOLID Principles, RBAC
- Cloud & DevOps:** AWS (SQS, SES, S3), Docker, Docker Compose, Git, CI/CD, Maven
- Databases:** PostgreSQL, MySQL, Oracle, MongoDB, Redis
- AI Tools:** Cursor AI, Claude Code, GitHub Copilot (Workflow Optimization & Code Quality)
- Professional Skills:** Technical Leadership, Mentorship, Agile/Scrum, Problem Solving

PROFESSIONAL EXPERIENCE

Infinite Computer Solutions | Software Engineer

Noida, India | **October 2023 – Present**

- Payment Systems Leadership:** Spearheaded the end-to-end implementation of a secure payment gateway integration; reduced transaction failures by **12%** through enhanced error-handling and circuit-breaker patterns.
- High-Volume Data Engineering:** Re-engineered a data processing module for **100,000+ records** using Spring Batch and SQL tuning; slashed query response times by **25%**.
- Process Automation:** Optimized an automated WhatsApp messaging system; leveraged asynchronous processing to handle high-volume CSV datasets, boosting messaging efficiency by **30%**.
- System Reliability:** Developed a comprehensive URL monitoring and alerting tool using scheduled tasks and AWS SES, resulting in a **15% improvement in service uptime**.
- Architectural Ownership:** Scaled and maintained RESTful microservices for a user base of **100k+**, ensuring high availability and adherence to clean architecture standards.

GigVistas | Software Development Engineer - I

Hyderabad, India | **July 2022 – August 2023**

- Real-time Communication:** Architected a real-time messaging platform using **WebSocket and STOMP**, driving a **40% increase** in user engagement via low-latency bidirectional communication.
- Cloud-Native Notifications:** Created a robust notification engine using **AWS SQS and SES**; improved user retention by **15%** through personalized, event-driven email workflows.
- Security Hardening:** Implemented Role-Based Access Control (RBAC) using **Spring Security**, reducing unauthorized system access attempts by **50%**.
- DevOps Optimization:** Containerized microservices using **Docker Compose** on AWS, reducing deployment overhead and environment setup times by **30%**.

FunctionUp | Backend Developer Trainee

Remote | **February 2022 – July 2022**

- Developed secure backend applications using **Node.js and MongoDB**, implementing JWT-based authentication and scalable logic for URL generation.

EDUCATION & CERTIFICATIONS

- Master of Science (MS) in IT** | Govt. Mohindra College, Patiala (2020)
- Bachelor of Science (BS) in CS** | Govt. Mohindra College, Patiala (2018)
- Certification:** The Complete AI Coding Course (Cursor, Claude Code) | 2025
- Certification:** Spring Ecosystem and Core (MVC, Boot, REST)
